Career Objective

Aspiring software developer with a solid foundation in MERN stack and a passion for creating efficient, scalable, and user-friendly applications. Equipped with strong problem-solving skills, a commitment to continuous learning, and experience in diverse programming technologies. Seeking to contribute to innovative projects in a forward-thinking organization where I can grow and add value through my technical expertise.

EDUCATION

Dronacharya Government College, Gurugram 2021-2024
Bachelor of Computer Application – CGPA – 7.0 Gurugram, Haryana

Technical Skills

- **Languages:** C, C++, JavaScript(ES6+), Python
- **Frontend:** HTML5, CSS3, React, Bootstrap, Tailwind, Responsive Design, Redux, React-Router, React Hooks, React Context API.
- **Backend:** Node.js, Express, RESTful APIs, API Integration, Authentication (JWT, OAuth).
- **Databases:** MongoDB, PostgreSQL, Mongoose, NoSQL Database, Aggregation Framework.
- **Tool & Technologies:** Version Control (Git, GitHub), Postman.
- **Other Skills:** Communication, problem-Solving, Time Management.

PROJECTS

[Task Manager Restful API](#) 2025

Developed and maintained a Task Manager API using Node.js and Express. The API allows users to create, update, delete, and manage tasks efficiently. Integrated features like user authentication and authorization, task categorization, and robust error handling for enhanced user experience and scalability.

[URL Shortening Restful API](#) 2025

Built a URL Shortening API using Node.js and Express, allowing users to shorten, customize, and track URLs. Implemented features like link expiration, redirection, and efficient storage, providing a simple and scalable solution for URL management.

[Tip Calculator](#) 2024

Developed a responsive Tip Calculator web application using HTML, CSS, and JavaScript. The application allows users to calculate the appropriate tip amount based on the bill total and desired tip percentage. It dynamically updates the total cost and provides a user-friendly interface for seamless interaction.

[Password Generator](#) 2025

Developed a React-based password generator application using Vite for fast performance and TailwindCSS for styling. The application allows users to generate secure passwords with customizable length and character options, ensuring enhanced security and usability.

Certifications

- [JavaScript Essentials 1](#) – Cisco 2024
- [JavaScript Essentials 2](#) – Cisco 2024
